## Instructions: Configuring Active Sync on Windows Mobile Devices

Once your account is migrated to FIUmail, you can now configure your Windows Mobile Device. With Microsoft Exchange Server 2007, UTS will be able to provide support for ActiveSync for Windows Mobile devices running Windows Mobile 5 and above.

Here are the instructions for configuring ActiveSync on these devices:

1. From your device's Main Menu, locate Active Sync and select it.
2. The *Configure Server Wizard* will launch
3. For *Server Address*, enter: `fiumail.fiu.edu`
4. Make sure the box for *This server requires an encrypted (SSL) connection* is checked.
5. Click Next
6. At the *Username* and *Password* prompts, enter your AD credentials
7. For *Domain*, enter: `ad.fiu.edu`
8. Choose to Save the Password and click Next
9. Choose what data you want to synch (e.g., Contacts, Calendar, Email, Tasks)
10. Click Finish
